Foreword

This book is intended to capture known information about the Jerome/Geroulo family specifically around the first generation to be born in the U.S. This will be a collaboration among family members that can be located spread across the country gathering not only the known genealogy facts but memories of the family members.

The idea is to not only capture the basic facts but as many memories as possible to make them available for future generations of family members. This is a large family and fortunately many of us have memories of our parents, grandparents, aunts and uncles and we should do everything possible to preserve those memories. We will do our best to be as accurate as possible with the data and recollection we have including information we find on-line.

This document will be available on-line to everyone in PDF format. It will change and evolve over time but updates will be posted on a regular basis at https://tomparette.com/ jeromeproject

Every attempt will be made to be as accurate as possible but as years have passed and memories have faded, there may be inaccuracies in the document or inconsistencies across those that contribute. We will do our best to make this as accurate as possible with the available facts.

Lastly, this exists only as a result of the efforts of those that contributed. The contributors will be noted in each section where they documented their memories and photos. Thank you for the time taken to contribute to this project.
